PROFILE

Computer Science undergraduate with strong programming fundamentals and hands-on experience in Python, C++, Java, Object-Oriented Programming (OOP), Data Structures, Algorithms, Databases, and AI/ML. Experienced in developing software and AI applications using Python, FastAPI, PostgreSQL, and Scikit-learn. Strong problem-solving, analytical, and logical reasoning skills.

EDUCATION

Allenhouse Institute of Technology, Kanpur, B.Tech - Computer Science 2027
CGPA: 7.8/10

Durgaprasad Vidyaniketan, Intermediate 2023

SKILLS

Languages Python, C++, Java	Ai/Machine learning scikit-learn, pandas, numpy, opencv	Core CS Object-Oriented Programming (OOP), Data Structures, Algorithms, DBMS, SQL, Arrays, Problem Solving
Database MySQL, PostgreSQL, Qdrant	Tools Git, GitHub, Version Control	Framework Fast Api, Langchain, React

PROJECTS

RAG Based AI Teaching Assistant

- Developed a multi-document AI teaching assistant using Python and FastAPI.
- Implemented object-oriented Python components for document processing, retrieval, and response generation.
- Designed database workflows using PostgreSQL for storing users, documents, and chat data.
- Implemented RAG-based information retrieval from PDFs and lecture notes.
- Built REST APIs for document processing and chat interactions.
- Technologies:** Python, FastAPI, LangChain, Qdrant, PostgreSQL, OOP, Nextjs

CuraMind – AI Medical Report Assistant

- Developed an AI-powered healthcare assistant that analyzes blood test reports and provides simplified, easy-to-understand explanations for users.
- Implemented secure user authentication, report upload, conversational chat, and persistent chat history.
- Integrated LLM APIs with a scalable backend and database to enable personalized report analysis and follow-up questions.
- Designed an intuitive user interface to improve accessibility for non-technical users.

Technologies: Python, FastAPI, React, Supabase, Groq API, LangChain, PostgreSQL, Qdrant, Git

CERTIFICATIONS

- Udemy - Complete Data Science Bootcamp
- Udemy - Master SQL for Data Science
- Tata Data Visualization - Empowering Business with Effective Insights

ACHIEVEMENT

- Solved 166+ DSA problems on LeetCode using Python and C++, strengthening algorithmic problem-solving skills.
- Earned programming skill badges/stars in C and Python on HackerRank.
- Participated in multiple hackathons, including HackIndia Conversation AI Hackathon 2026 as a member of Team Code Fusion.
